It's obvious why our bedroom doors are chosen by so many people. But there's no one single reason. Instead, it's a combination of things.

For example, the sheer range of door styles and finishes available – from made to measure to imported Italian finishes – designed and manufactured using the latest techniques in state of the art facilities.

Our outstanding service, built on the experience of 35 years in the business and with a dedicated team always looking for ways to improve, is another reason for buying from us.

But most of all, our bedroom doors reflect the very values we live by. Offering the best value, in every sense; giving you all the flexibility, choice and support you need; and featuring quality, innovation and service to exceed your expectations at all times.

MITRE FRAMED

The distinctive Mitre Frame and flat centre offers endless possibilities to create your own unique style, whether in a stylish single finish or combining complementary shades. Also available made to measure, for even more flexibility.

ARIES, Bar Handle

BEAUTIFULLY SIMPLE, SIMPLY BEAUTIFUL

It makes this a style that's right at home in virtually any bedroom.

In design, the most elegant solution is often the simplest. Where form truly follows function, without fussy adornment or over-zealous details. And so it is with our Mitre Framed door styles.

While there may be four subtle variations in style in a wide range of finishes, they all reflect the ethos of the expert eye that created them – to produce a design fit to grace any surroundings.

Ashby

Simple and straightforward does it. This 22mm thick door with its flat frame offers a pleasingly unassuming profile, perfect when teamed with a long handle.

Barkby

The distinctive profile of Barkby gives the door a certain streamlined appearance, while the slightly thicker 24mm construction adds to the overall feeling of quality.

Somerby

At 27mm thick, the most substantial door in the range is also the most subtle. Its slightly rounded frame catches the light beautifully for a delicately different look.

Rothley

Discretion's the word with Rothley. With its thinner frame and low profile, this is a style that creates refined forms from every angle, giving a lightly contoured effect.
